

Artificial Intelligence

Animated Art

Make your drawings come alive!

- Draw a character with a head, body, arms and legs.
- Use the mini-whiteboards and markers

Photo your character using the PC webcam.

Open the Camera application¹ and take a photo

1. On the Windows Desktop, click on the window icon.
2. Type “**camera**” in the search box at the top.
3. The top match should be the Camera App – click on it.
4. Hold up your picture to the camera and take a **photo**.
5. Open File Explorer, and check your photo in **Pictures/Camera Roll**.
6. No need to crop yourself out of the photo.

Open <https://sketch.metademolab.com>

- Click **Get Started**

Get Started

Upload a Drawing

1. Click **Upload Photo**
2. Look for your picture in Pictures/Camera Roll
3. Select your photo and click **Open**

- Click **Next**
- You can **agree** to help their research if you like.
