

# SCRATCH Scratch and Sparkle

Register/login at <https://scratch.mit.edu>

*Create animated backgrounds.*

1) Download an animated sparkly image:

<https://codeclub67.github.io/images/sparkle1.gif>

<https://codeclub67.github.io/images/sparkle2.gif>

<https://codeclub67.github.io/images/sparkle3.gif>

<https://codeclub67.github.io/images/sparkle4.gif>

*Choose which one you want to use.*

- 2) In the stage area, **upload backdrop** one gif image from where you downloaded it.
- 3) On the Backdrops tab select the first blank backdrop and delete it (click on the bin).

*Notice that there are 24 different backdrop images. Now show them in a loop...*

- 4) Select the **code** tab for the **stage**.
- 5) Add code to show the backdrop images in a loop that lasts **forever**.
- 6) **Save** your code with a good name.

**File > Save now**
