## Adventures on the Web

4

Add images to your rooms using pixilart.

- Open pixilart.com (we can use the same login **CodeClub67**)
    1. Click START DRAWING > NEW DRAWING
    2. SELECT **Canvas Preset** 500 x 500

Draw a scene from your room.
When your drawing is finished:

- **SAVE** your drawing to your **downloads** folder
    1. Click *SAVE DRAWING (at the top-right)
    2. give it a title – **the room name**
    3. set visibility to **PRIVATE**
    4. click **SAVE** (or UPDATE if you're saving an update)

- You can also **save** it by doing:
    1. File > Export
    2. DOWNLOAD .PNG

- You can also **load** a previous drawing:
    1. Click on the (smiley) avatar (top-right).
    2. Select My Gallery
    3. Click on the drawing
    4. Select "Edit Drawing"

TOOLS

- Login to **replit.com** with the login provided.

  1. Select Apps "Colossal Cave Adventure"
  2. Click on the three dots next to files (top-left)
  3. Select **Upload files**
  4. Choose your image from the **downloads** folder.

  Files ⊘   ⋮

- *Select your room from the list at the left (an **html** file)*

  1. At the bottom of the page add a line break

  2. After the line break add an image tag.

     Replace **MY IMAGE** with the filename you just uploaded.

     <img src= "MY IMAGE.PNG" >

     "src" is short for source.

  3. You can adjust the size by adding a **width**.

     This is a percentage of the width up to 100%:

     <img src="MY IMAGE.PNG " width="50%">
