

Pac-Man Badge

*Keynsham Music Festival welcomes the **Discovery Zone** to this year's festival. Code-Club presents Robot Pac-Man. This week we will create a special **Pac-Man badge** you can wear to the Festival.*

Over the page are your 8x8 graphics (8 **pixels** high by 8 pixels wide). **Pixels** are **picture elements**.

1) Create an **8x8** image using **fuse beads**. You can leave **empty** background spaces.

You will need:

- A plastic pegboard
- Fuse beads
- craft tweezers

2) An adult will use an electric iron to heat and fuse the beads for 30 seconds, using the special ironing paper, keeping the iron on the move.

3) After ironing the first side, we'll remove the fused beads from the pegboard and iron the other side.

4) Let the fused beads cool down. Place something heavy on them to prevent warping.

5) Stick a magnetic fastener on the back.
